

The **eVeR safe** project has successfully reached the halfway mark.

One significant milestone has already been accomplished – the **Training Curriculum**. The curriculum was designed to include structured units and defined learning outcomes tailored for autistic individuals. It focuses on enhancing their understanding of emergency situations and equipping them with the skills to respond effectively and in a timely manner to ensure their safety.

Project progress

Working on
educational materials:

Presentations **DONE** ✓

Videos **WORK IN PROGRESS**

VR scenarios **WORK IN PROGRESS**

Presentations for beneficiaries:
