September 2024

Project No. 2023-1-IE01-KA220-ADU-000152764

Co-funded by  
the European Union

## Project progress

- Meetings with advisory groups were held in Ireland, Greece, Lithuania, and Bulgaria.
- Literature and scientific articles were reviewed to better understand the emergency skills required for autistic individuals.
- Emergency scenarios, which will be incorporated into the virtual reality simulations, have been developed.
- Work has begun on the project's main output – the virtual application.
- Multiplier event held in Ireland.

From now on,  
you can follow the project's news  
on the website.

**ever-safe.eu**

**eVeR Safe project** is dedicated to enhancing safety skills for autistic individuals through VR technology.

**eVeR Safe** is an international project implemented by 8 partners from 6 countries. The project started in December 2023 and will continue until June 2026.

The project is Co-funded by the European Union.

## Next steps

- Project partner Meeting in Lithuania;
- Continue designing the curriculum for autistic individuals.
- Refine training units for accessibility and clear emergency responses.
- Finalize materials for the VR platform.
- Develop VR scenarios simulating real-life emergencies to teach safe, quick responses while reducing anxiety.
